Posters	Plotter in Davis Family Library 242 Armstrong Library (McCardell Bicentennial Hall) 209

Printing from Personally-owned Computers via Mobility Print (<http://go/mobileprint/>)

- **IMPORTANT:** Your device must be connected to the **MiddleburyCollege** wireless network before proceeding! Certain printers have restricted access; you may see ones included in the printer list that you cannot use.

macOS (one time setup instructions)

1. Navigate to **System Preferences > Printers & Scanners**.
2. Click the  icon below the *Printers* pane. The *Add* dialog box appears, listing all discovered printers on the network.
3. Click to select a printer. Its *Name*, *Location*, and *Use* will display.
4. Confirm that *Use* is set to **Secure AirPrint**, then click **Add** to set up the desired printer.
5. Print your document. When prompted to authenticate, do NOT accept the default login details! Enter your **full Middlebury email address and password**.
(Repeat steps 1 – 5 above to add any other desired printers later.)

Windows 10 (one time installation instructions)

1. Visit <http://go/mobileprint/>. Click the link to download then run the **Mobility Print Installer** (pc-mobility-print-printer-setup-1.0.XXX.exe). You may need to allow the app to make changes.
2. Choose the installation language. On the *License Agreement* screen, **accept** the agreement, then click **Next**.
3. Select desired printer(s); then click **Next**.
Note: You may want to **uncheck** the box beside BIH621CT to deselect it.
4. Enter your **full Middlebury College email address and password**; then click **Next**.
Important! The credentials used to install individual printers will be charged for any print jobs submitted to it, regardless of who is logged on to the computer.
5. Click **Finish**. Print your document.
(To add more printers later, run the downloaded **Mobility Print Installer** program again.)

Troubleshooting Common Issues

- Check the wireless network. Mobility Print does not work on the MiddleburyGuest network; you must be connected to wireless using **MiddleburyCollege**.
- Mac users can often fix issues by removing/reinstalling printers from System Preferences > Printers & Scanners.
- Be sure you are using valid login credentials when prompted to authenticate; you need your **full** Middlebury email address and password. You can confirm your password is correct by using it to log in to a different service, such as Webmail (<http://go/mail/>).
- Still need a hand? See “Getting Help with Printer Issues” on reverse.

Getting Help with Printer Issues

➤ **IMPORTANT:** Always make note of the Printer name, SymQuest tag number, and any error message.

Contact **SYMQUEST** (800-374-9900 or tac@symquest.com) for the following:

- Print quality (blotchiness, streaks, lines)
- Jams
- Error message on the printer

Contact the **HELPDESK** (see <http://go/helpdesk/> for specifics) for the following:

- Low paper / out of paper
- Low toner issues (print is light overall or in patches)
- Issues with print release stations that are separate devices.
- Anything not specifically listed above as a SymQuest issue!
