

Please follow the next steps for Windows 10:

1. Open Java Control Panel

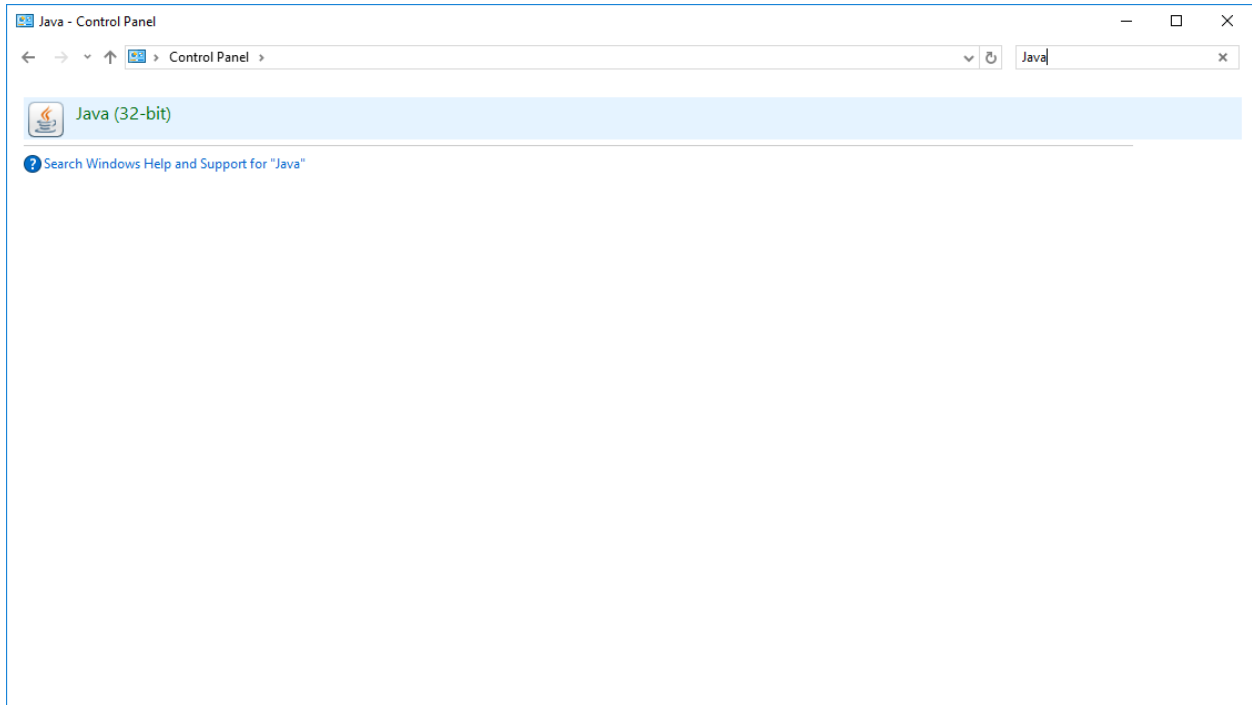

a. Go to "Control Panel"

b. While "Control Panel" is open, search for Java in the 'Search Control Panel' box

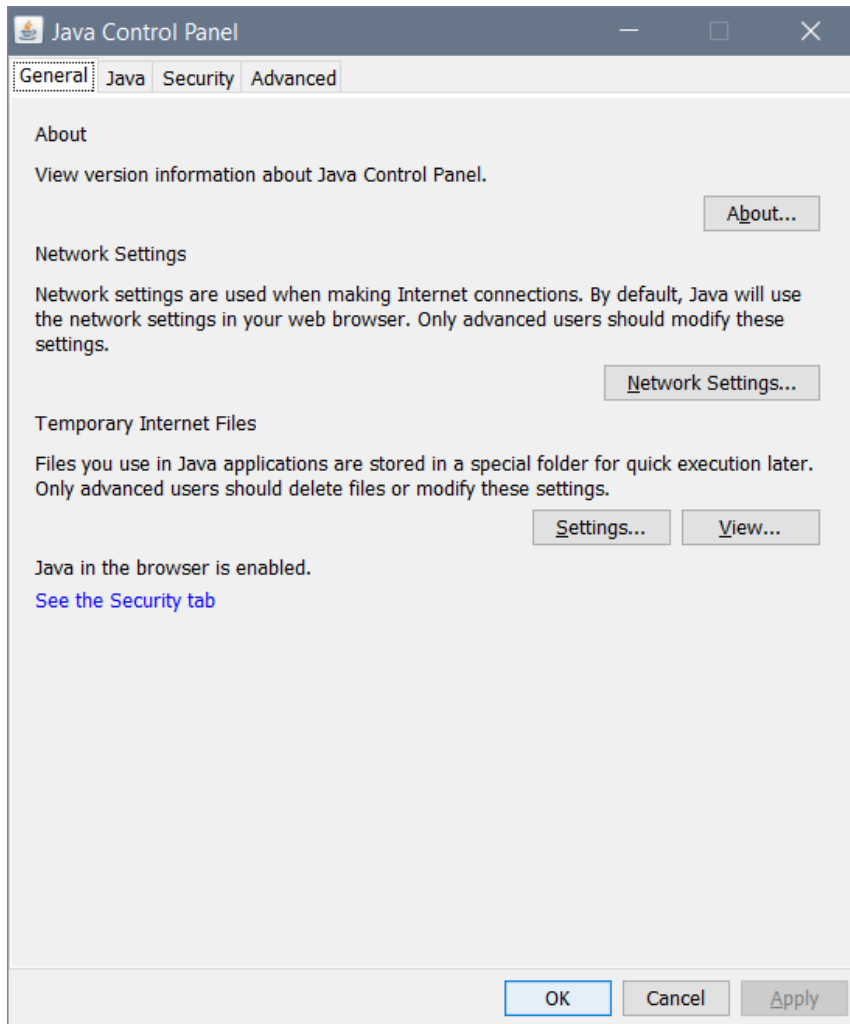

You should see a single entry after searching for Java, something like this:

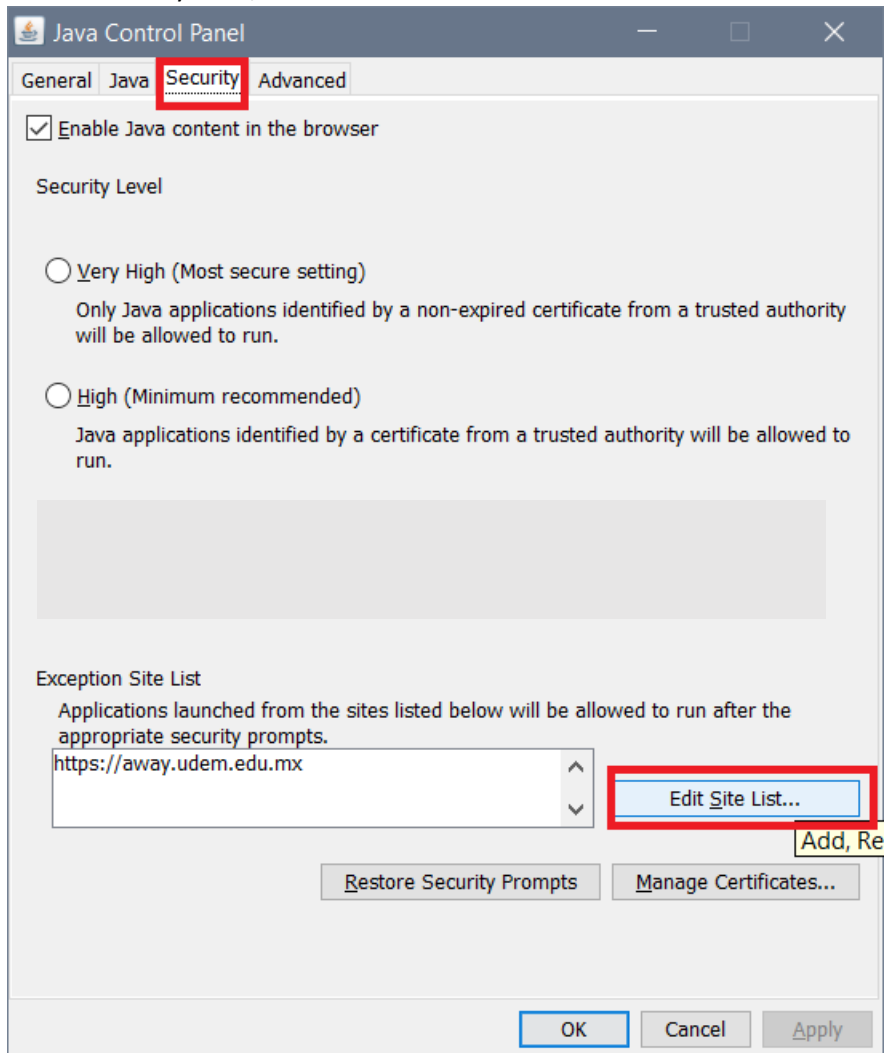

Click on 'Java (32-bit)'

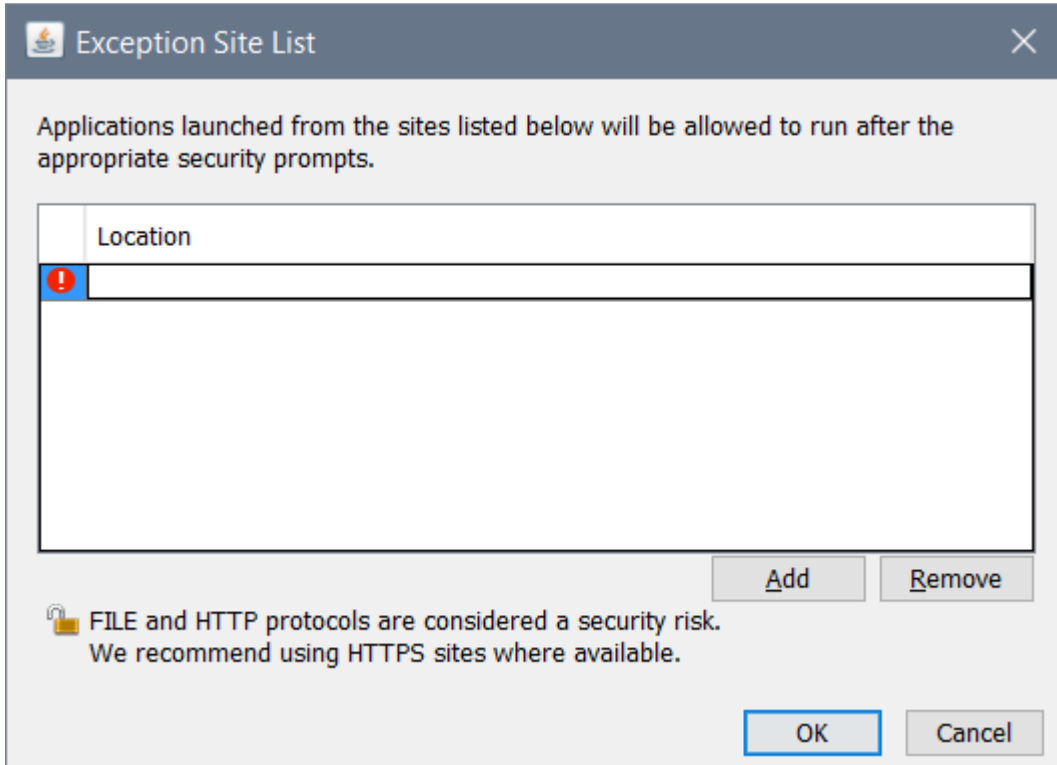

You should see then see the Java control panel:

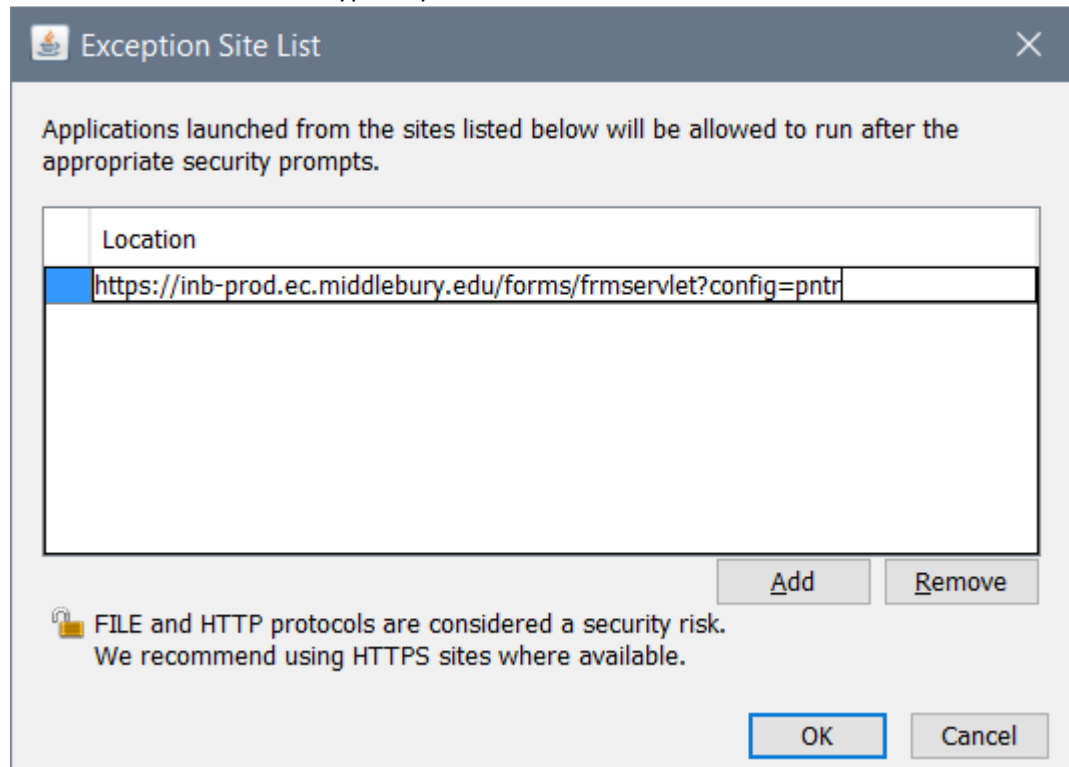

2. Go to "Security" Tab, and click on the "Edit Site List..."

You should see something like this:

3. Add <https://inb-prod.ec.middlebury.edu/forms/frmservlet?config=pntr> url to the list.
  - a. Click on “Add” button and type or paste the URL.

- b. Then Click on “OK” in the “Exception Site List” and “Java Control Panel”.
4. Please try to open INB again.
