

## How do I create a Wiki on Moodle?

To create a wiki, go to your Moodle course, turn editing on, click on **Add an activity** and select **Wiki**.

- Please use the following resources on the <http://docs.moodle.org/en/wiki> to learn more about wikis in Moodle:
- There is a main [help page](#) (what is a wiki, links to how to edit a page).
  - Finally, there is an entire chapter from a book called *Using Moodle* that is dedicated to wikis. The PDF of the wiki chapter is [available for free online](#).
